

LETHBRIDGE TRANSIT SERVICE CHANGES

In reviewing Lethbridge Transit ridership levels and evaluating efficiencies, two routes were identified as not meeting our requirements for service. As a result, Lethbridge transit will be making changes to its routes effective Wednesday, October 5, 2011.

Route 14 will be removed and customers accustomed to taking this route will now be serviced by routes 20 and 31. Route 30 will be removed and absorbed into routes 20 and 22. Route 23/24 will no longer service the hospital but will now service the downtown from the North Terminal and Lethbridge College. Service from Downtown to Lethbridge College on the hour and half-hour will now be provided by route 23.

Adjustments have been made to Routes 31, 20, 22 and 23/24. Please see the maps and make note of the changes.

NEW RIDE GUIDE AVAILABLE IN SEPTEMBER
