

LASALLE PARK

487 Aquitania Blvd West

LaSalle Park is one half of the beautiful entrance drive to the Garry Station West community. Located on the East side of Garry Port, this lovely park has a natural feel with the storm pond with long natural grasses and water plants like cattails and rushes, providing a quiet space for birds and small shore animals to enjoy.

The paved pathway and sidewalk around the park connect the LaSalle neighbourhood to Northlander Park to the west and the regional pathway along Garry Drive which connects to the rest of the west side's trail system and many more parks along the way.
