- iv. **Fish hooking:** Any attempt by a Combatant to use their fingers in a manner that attacks their opponent's mouth, nose or ears, stretching the skin to that area, will be considered "fish hooking". Fish hooking is generally the placing of fingers into the mouth of your opponent and pulling your hands in opposing directions while holding onto the skin of your opponent.
- v. **Hair pulling:** Pulling of hair in any fashion is an illegal action. A Combatant may not grab hold of their opponent's hair to control their opponent in any way. If a Combatant has long hair, they may not use their hair as a tool for holding or choking in any fashion.
- vi. **Spiking the opponent to the canvas onto the head or neck (pile-driving):** Any

throw with an arc to its motion is to be considered a legal throw. It does not matter if the opponents head hits the canvas. A pile driver is considered to be any throw where you control your opponent's body placing their feet up in the air with their head straight down and then forcibly drives the opponents head into the canvas or flooring material. It should be noted when a Combatant is placed into a submission hold by their opponent, if that Combatant is capable of elevating their opponent, they may bring that opponent down in any fashion they desire because they are not in control of their opponent's body. The Combatant who is attempting the submission can either adjust their position or let go of their hold before being slammed to the canvas.

- vii. **Strikes to the spine or the back of the head:**
The back of the head starts at the Crown of the head with a one (1) inch variance to either side, running down the back of the head to the occipital junction. This area stretches out at the occipital junction (nape of the neck) to cover the entire width of the neck. It then travels down the spine with a one (1) inch variance from the spine's centerline, including the tailbone.
- viii. **Throat strikes of any kind and/or grabbing the trachea:** No directed throat strikes are allowed. A directed attack would include a Combatant pulling their opponent's head in a way to open the neck area for a striking attack. A Combatant may not gouge their fingers or thumb into their opponent's neck or trachea in an attempt to submit their opponent. If during stand-up action of a fight a strike is thrown and the strike lands in the throat area of the Combatant, this shall be viewed as a clean and legal blow.
- i. **Fingers outstretched toward an opponent's face/eyes:** In the standing position, a Combatant that moves their arm(s) toward their opponent with an open hand, finger pointing at the opponent's face/eyes, has will be a foul. Referees are to prevent this dangerous behavior by communicating clearly to Combatants. Combatants are directed to close their fists or point their fingers straight up in the air when reaching toward their opponent.
- ii. **Downward pointing elbow strike (12 to 6):** The use of a linear "straight up straight down" elbow strike is prohibited. Any variation of this straight up and down linear elbow strike makes the strike legal. Any arc or any angle change from straight up to straight down makes the strike legal. Any variation of position does not alter the legality of the strike.
- iii. **Groin attacks of any kind:** Any attacks to the groin area including striking, grabbing, pinching or twisting is illegal. Groin attacks are the same for men and women.
- iv. **Kneeling and/or kicking the head of a grounded opponent:** A grounded Combatant is defined as: Any part of the body, other than the soles of the feet touching the fighting area floor. To be grounded, the palm of one hand (a flat palm) must be down, and/or any other body part must be touching the fighting area floor. A single knee, arm, (not fingers) makes the Combatant grounded without having to have any other body part in touch with the fighting area floor. At this time, kicks or knees to the head will not be allowed.
- v. **Stomping of a grounded Combatant:** Stomping is considered any type of striking action with the feet where the Combatant lifts up their leg bending their leg at the knee and initiating a striking action with the bottom of their foot or heel. (Note: Axe kicks are not stomping) Standing foot stops are NOT a foul. As such, this foul does not include stomping the feet of a standing Combatant.
- vi. **Holding opponent's gloves or shorts:** A Combatant may not control their

opponent's movement by holding onto their opponent's shorts or gloves. A Combatant may hold onto or grab their opponent's hand as long as they are not controlling the hand only by using the material of the glove but by actually gripping the hand of the opponent. It is legal to hold onto your own gloves or shorts.

- vii. **Holding or grabbing the fence or ropes with fingers or toes:** A Combatant may put their hands on the fence and push off of it at any time. A Combatant may place their feet onto the cage and have their toes go through the fencing material at any time. When a Combatant's fingers or toes go through the cage and grab hold of the fence and start to control either their body position or their opponent's body position it now becomes an illegal action. A Combatant may not grab the ropes or wrap their arms over or under the ring ropes at any time. The Combatant may not purposely step through the ropes. If a Combatant is caught holding the fence, cage or ring rope material the referee may issue a one-point deduction from the offending Combatants scorecard if the foul caused a substantial effect in the fight. If a point deduction for holding the fence occurs, and because of the infraction, the fouling Combatant ends up in a superior position due to the foul, the Combatants should be re-started by the referee, standing in a neutral position.
- viii. **Small joint manipulation:** Fingers and toes are small joints. Wrists, ankles, knees, shoulders and elbows are large joints. Grabbing the majority of fingers/toes at once is allowed.
- ix. **Throwing an opponent out of the ring or caged area:** A Combatant shall not throw their opponent out of the ring or cage.
- x. **Intentionally placing a finger into any orifice or into any cut or laceration of their opponent:** A Combatant may not place their fingers into an open laceration in an attempt to enlarge the cut. A Combatant may not place their fingers into an opponent's nose, ears, mouth or any body cavity.
- xi. **Clawing, pinching, twisting the flesh:** Any attack that targets the Combatant's skin by clawing at the skin or attempting to pull or twist the skin to apply pain is illegal.
- xii. **Timidity (avoiding contact or consistently dropping the mouthpiece or faking an injury):** Timidity is defined as any Combatant who purposely avoids contact with his opponent or runs away from the action of the fight. Timidity can also be called by the Referee for any attempt by a Combatant to receive time by falsely claiming a foul or injury, or purposely dropping or spitting out their mouthpiece, or other action designed to stall or delay the action of the fight.
- xiii. **Use of abusive language in the fighting area:** The use of abusive language is not allowed. It is the sole responsibility of the Referee to determine when language crosses over the line to abusive. It should be clear that Combatants may talk during a match. The mere use of auditory language is not a violation of this rule. Examples of abusive language would be racially motivated or derogatory language.
- xiv. **Flagrant disregard of the Referee's instructions:** A Combatant MUST follow the instructions of the Referee at all times. Any deviation or non-compliance may result in the Combatant's disqualification.
- xv. **Unsportsmanlike conduct that causes an injury to opponent:** Every Combatant competing in the sport of MMA is expected to represent the sport in a positive light emphasizing sportsmanship and humility. Any Combatant that disrespects the rules of the sport or attempts to inflict unnecessary harm on a competitor who has been either taken out of the competition by the referee or has tapped out of the competition shall be viewed as being unsportsmanlike.
- xvi. **Attacking an opponent after the bell has sounded the end of the period of**

unarmed combat: The end of a round is signified by the sound of the bell and the call of time by the Referee. Once the Referee has made the call of time, any offensive actions initiated by a Combatant shall be considered after the bell and illegal.

- xvii. **Attacking an opponent on or during the break:** A Combatant shall not engage their opponent in any fashion during a time-out or break of action in competition.
- xviii. **Attacking an opponent who is under the care of the Referee:** Once the Referee has called for a stop of the action to protect a Combatant who has been incapacitated or is unable to continue to compete in the fight, Combatants shall cease all offensive actions against their opponent.
- xix. **Interference from a Combatant's corner or seconds:** Interference is defined as any action or activity aimed at disrupting the fight or causing an unfair advantage to be given to a corner's Combatant. Corners are not allowed to distract the Referee or influence the actions of the Referee in any fashion.

The use of body grease, gels, balms, lotions, oil or other substances is a violation and is prohibited from being applied to the hair, face or body. This includes excessive amounts of water being discarded in a manner at the designated time and the Combatant could be penalized or subject to disqualification.

Note: These are known as the Unified Rules of Mixed Martial Arts.

(b) Amateur

In addition to the professional Unified Rules of Mixed Martial Arts, the following rules will apply to amateur bouts:

- i. **No Elbow strikes of any kind to the head;**
- ii. **No Knee strikes of any kind to the head;**
- iii. **No Linear kicks to the knee joint;**
- iv. **No Twisting leg submissions:** Heel hooks and toe holds are prohibited.

13.6 INTENTIONAL FOULS

- (a) If An intentional foul causes an injury, and the injury is severe enough to terminate the bout immediately, the combatant causing the injury shall lose by disqualification.
- (b) If an intentional foul causes an injury and the bout is allowed to continue, the referee shall notify the authorities and deduct two (2) points from the combatant who caused the foul. Point deductions for intentional fouls will be mandatory.

The bout will result in a TECHNICAL DRAW if the injured combatant is behind or even on the score cards.
- (d) If the combatant injures themselves while attempting to intentionally foul their opponent, the referee will not act in their favor and the injury shall be the same as one produced by a fair blow.
- (e) If the referee feels that a combatant has conducted themselves in an unsportsmanlike manner, they may stop the bout to deduct points or stop the bout to disqualify the

combatant.

13.7 ACCIDENTAL FOULS

- (a) If an accidental foul causes an injury severe enough for the referee to stop the bout, it will result in either a NO CONTEST or DIQUALIFICATION if stopped before ½ of the scheduled rounds plus one (1) second of the bout has been completed.
- (b) If an accidental foul causes an injury severe enough for the referee to stop the bout after ½ of the scheduled rounds plus one (1) second of the bout has been completed, it will result in a TECHNICAL DECISION awarded to the combatant who is ahead on the score cards at the time the bout is stopped. (Partial rounds will be scored. If no action has occurred, the round should be scored as an even round. This is at the discretion of the judges).
- (c) If a combatant, during the course of a round, visibly loses control of bodily function (vomit, urine, feces), the fight shall be stopped by the referee and the combatant shall lose the bout by Technical Knockout (TKO) due to Medical Stoppage.
- (d) If the loss of bodily function occurs in the rest period between rounds, the ringside physician shall be called in to evaluate if the combatant can continue. 14. AMATEUR WRESTLING

14.1 Unless otherwise directed by the Commission, all amateur wrestling contests shall be governed by the rules and safety codes of the Canadian Amateur Wrestling Association.

14.2 A Combatant, Referee, timekeeper, judge or other official authorized by the Alberta Amateur Wrestling Association to participate in an amateur wrestling contest supervised by the Alberta Amateur Wrestling Association is deemed to have been issued a license to do so by the Commission.

14.3 A duly qualified Physician for the province of Alberta appointed by the Alberta Amateur Wrestling Association to examine wrestlers or to supervise an amateur wrestling contest shall be deemed to be a qualified Physician appointed by the Commission for that purpose.

14.4 A Promoter must apply for and receive a permit prior to holding an amateur wrestling card.

15. PROFESSIONAL WRESTLING

15.1 No professional wrestler shall make contact with any spectator during a contest.

15.2 The Promoter of a professional wrestling show shall ensure that wrestlers do not make contact with spectators during a contest.

15.3 The Promoter of a professional wrestling show shall ensure that the show is conducted safely and decently. The Promoter shall ensure the wrestling participants do not perform stunts which would present a risk of death or permanent physical injury to the wrestling participants or spectators.

15.4 The Promoter of a professional wrestling show shall ensure the wrestling participants refrain

from the use of profanity, disparaging remarks, or any form of verbal or non-verbal communication which would deviate from the norms of moral acceptability appropriate for a family-oriented entertainment Event.

15.5 The Commission has a THREE (3)-tiered fee and medical requirement system based upon the level of risk to the individual wrestlers. The determination of which level will apply to any particular professional wrestling Event is the sole discretion of the Commission:

Level One: The Promoter hosts a performance which is geared to family values, prohibits the use of profanity, shows respect to the audience members, rarely uses props during the performance, and minimizes the risk of injury to the wrestlers by performing only low impact stunts during the performance. The minimum Event application fee for a three-month Permit will apply. There is no requirement to have medical personnel, including paramedics, ringside Physicians or an ambulance, on site.

Level Two: The Promoter hosts a performance where an increased risk to the physical safety of the wrestler results. Props and stunts are used in such a manner as to potentially cut skin or cause damage to tissue, cartilage or bones. A significant portion of the show occurs outside the ring and inside of the area separating the wrestlers from the audience. The wrestlers engage in activities in which blood results. The Promoter will have to apply for a Permit for each Event. The cost of that Permit will be equivalent to the three-month cost for a Level One Permit. The Promoter will have at least ONE (1) paramedic in attendance for the duration of the Event and will be responsible for that cost.

Level Three: The Promoter hosts a performance where the risk to the physical safety of the wrestler is high. Props are used in a high-risk manner. Bleeding is a regular part of the performance. Extreme story lines are used on a regular basis. Weapons such as bats, etc. are used on a regular basis. Audiences under the age of eighteen would be discouraged from attending. The Promoter is required to pay the combative sport Event Permit fee required by other combative sports for each Event. The Promoter and the wrestlers would be required to be registered. The Promoter will have a ringside Physician, TWO (2) paramedics and an advanced life support-equipped ambulance in attendance for the duration of the Event and be responsible for that cost.

15.6 In the case of a professional wrestling Event where the Promoter, having paid a Permit fee for a specific level of show but is considered to have exceeded the limits outlined in the level for which the permit has been issued, will be fined costs inherent in the increased level.

15.7 Additional fees and possible Promoter suspensions may be considered by the Commission during a formal disciplinary hearing.
