September 23rd, 2016

New eProcurement Process at the City of Lethbridge

On September 23rd, 2016 we launched a new eProcurement tool that will allow vendors to view, register and download bid opportunities online in one quick, easy and convenient location for the City of Lethbridge. An advertisement will still be posted on the Alberta Purchasing Connection (APC) but a link will direct you back to our new City of Lethbridge eProcurement webpage.

Bidders are invited to create a free Bidding System Vendor account by visiting our Bid Opportunities website at <https://lethbridge.bidsandtenders.ca/Module/Tenders/en/Home/BidsHomepage> and clicking on the "Create Account" button. When creating an account, Bidders select commodity code(s) for goods, services and construction and the Bidding System will notify the Vendor by email of any Bid opportunities matching their commodity code selection.

We will also be inviting bidders to attend our free online webinar where we will provide a hands-on live demonstration of the new tool.
