

Acceptable Completion of Infrastructure

Final Acceptance Certificate (FAC)

1. Near the expiry of the maintenance period another mutual inspection is completed including the City of Lethbridge, the developer's representative and the contractor to identify any deficiencies.
2. A submission is made to the City for each utility.
3. Once all deficiencies have been corrected and the FAC submission is complete the FAC's are released and the City of Lethbridge will take over the maintenance of the utility.

Certificates will not be processed until all supporting documents are received and all inspections are complete to the satisfaction of the City.
