**Homeowner Application
For Plumbing and Heating**

BP _____
HV _____
PP _____

Project Address:

Unit/Bay # _____ Civic Address _____

Date: _____ **Access Code:** _____

**** PLEASE NOTE ** BEFORE COMPLETING THE APPLICATION,
THE FOLLOWING SHOULD BE READ CAREFULLY.**

A homeowner cannot obtain a plumbing or heating permit for work done by others.

*If you have had no previous knowledge or experience with plumbing or heating, you should engage a certified contractor. Experience has shown that persons not familiar with plumbing or heating installations and the applicable requirements often complete work which requires many extensive corrections upon inspection and, as a result, such installations often create serious hazards.

**In addition, it must be emphasized that the person signing the permit application assumes the responsibility for ensuring that the installation concerned is completed in a safe manner, in accordance with applicable regulations.

After considering the above carefully and you still wish to proceed with doing your own work, please sign the following:

"I hereby state that I am the owner of this single family residence and that I am residing at the property. I further state that I shall do this work myself. I will call for inspections before any work is covered and I will make whatever changes may be required by the inspector to ensure that the installation complies with the regulations.

Further I agree to hire a licensed contractor to complete the installation if so requested by an inspector."
