

Fire Station Tours

Students, clubs, associations and citizens are invited to book a tour of their local fire station. During station tours, participants have the opportunity to meet the men and women dedicated to your safety. Learn about the Lethbridge Fire Department vehicles and the technical firefighting equipment that firefighters use on a daily basis. This is a great opportunity for participants to learn about fire safety with the people who make it happen. There is also an opportunity for participants to learn about fire safety. Children receive a fire safety activity book at the conclusion of each tour. This book will continue to reinforce the important information shared during their time at the fire station.
