

Legacy Park Features In Future Phases

Community Pavilion

- Multi-function building to include
 - main washrooms for the park and change facilities for the spray park and skating
 - Mechanical room for the spray park
 - Concession
 - Reception foyer to be used for public displays and markets
 - Community room suitable for group booking and small events (similar in size to Culver room in City Hall) community classes, club meetings and parties

Spray Park

- Outdoor spray park facility near the Community Pavilion

Discovery Play facility

- Playground area designed for creative and social play rather than traditional playground equipment
- Play area designed with landform, water and structures

Outdoor market space

- Plaza area in front of the Community Pavilion and an outdoor extension of the Pavilion foyer.
- Used for seating for the concession and for art exhibits, farmers or craft markets and other public displays

Picnic shelter

- Bookable picnic area complete with shelter with cooking facility and washrooms
- Fenced area to enable Liquor permits
- to accommodate smaller groups and events

Gardens

- Entrance feature gardens to provide attractive park edge and pedestrian entrances
- Passive or quiet areas of the park developed to promote relaxation

Arboretum

- Specimen trees that grow well in this region to highlight and promote our urban forest
- Trees with labels to inform the public of suitable plantings and species selection

Indoor garden and Café

- Four season indoor garden suitable for small receptions and picture backgrounds
- Adjoining café that complements the use of the facility
- Basic design and utilities in place for distant future opportunity for private partnership
- Public washrooms for west end of park to accommodate performances and events

Event facilities for fairs and festivals

- The outdoor performance area has basic design in place to accommodate future additions needed for food trucks and other facilities for large events and festivals

Public art

- Public art will be added to adorn the landscape as opportunity is presented on an ongoing basis

Parking

- Existing parking lots to be expanded with future park development to accommodate use

Circulation road

- Internal road to facilitate emergency vehicles needing access into the park
- Creation of additional park entrance and exit point to accommodate high traffic flows at peak times
- Provides a loop for large busses and transport trucks used for large events and festivals

Disk golf course

- Incorporation into the park landscape and use patterns of the park when construction is complete
