

2018 Electric Distribution Rates

Rate Code	Distribution Rate Description
991	Standard Single Phase Distribution Rate – for single phase service metered through a single cumulative or demand meter. <ul style="list-style-type: none">▪ Demand less than 12 kVA
992	Medium Single Phase Distribution Rate – for single phase service metered through a demand meter. <ul style="list-style-type: none">• Demand of 12 kVA or greater
994	General Three-Phase Distribution Rate – for three phase service metered through a single demand meter. <ul style="list-style-type: none">▪ Demand less than 150 kVA
995	Medium Three-Phase Distribution Rate – for service through a three-phase connection at secondary voltage metered through a single demand meter. <ul style="list-style-type: none">▪ Demand of 150 kVA or greater and less than 300 kVA
996	Large Three-Phase Distribution Rate – for service through a three-phase connection at secondary voltage metered through a single interval meter. <ul style="list-style-type: none">▪ Demand of 300 kVA or greater
997	Primary Distribution Rate – for service through a three-phase connection at primary voltage metered to customer transformation through a single interval meter. <ul style="list-style-type: none">▪ Demand of less than 6 MVA
998	Public Lighting Distribution Rate – for unmetered municipally owned and provincial owned public lighting systems and individual customer subscribed unmetered security lighting. .
999	Unmetered Distribution Rate – for unmetered service connections with small, consistent and predictable system usage.
