

CEDAR PARK

1401 Birch Place South

Cedar Park is a block park with lots of trees, plenty of open space for play, and a small playground with a cool climbing apparatus. The park is widely used by the neighbourhood with lots of walkers, joggers, and bikers taking advantage of the scenery while out on for their daily exercise.

This park would be great for a game of hide and seek or tag as there is plenty of seating for parents to be able to keep an eye on their little ones.
