Lethbridge

Mike Mountain Horse School has a small school grounds, but what it lacks in green space it definitely makes up for with its playground. This playground provides a wide variety of play equipment choice. For the child that has more energy than they know what to do with this playground is perfect.

The school is located adjacent to the Atso Tawaawa park and takes advantage of its sports fields and open space. There is plenty to do between the two sites.

Please note: dogs are not permitted on school or sports fields.
