Funding

Total funding available for 2024 is \$97,500.00.

- There will be 3 application intakes for 2024 (see Key Dates). 1st Intake will see up to \$60,000 of the funds awarded, and the 2nd/3rd will see \$18,750 each.
- The maximum grant awarded would be matching cash financial contributions to a maximum of \$7,500 and not exceed 50% of the event expenditures budget and actuals. Because funding is limited, all organizations that meet the eligibility criteria may not be supported or receive the full amount requested. This determination will be based off of scoring results. Applicants will be notified of scoring result 2 weeks after the application deadline.

- All approved grant applications exceeding \$1,000 require the organization to provide 50% matching contribution.
- 50% of eligible funds are received upfront, the remaining 50% is received after the City of Lethbridge reviews and confirms acceptance of the organization's final report.
- Event final reports must balance and events that turn a profit will receive a lower second payment disbursement, and not allow profit beyond what was advanced. The total amount of which will be calculated by subtracting the total profit amount from the awarded grant total, or adjusting the awarded grant. *Grant budgets (application form) and actuals (final report) must balance* and applicants will not be awarded the full, or any second 50% payment if it increases profit to applicant.
- Return of Funding Clause: funding that is not expended as per the details of the application shall be returned to the City for re-investment in other services through this grant program.
- If the primary purpose of the event is fundraising and the ability of someone from the community to attend/participate is limited by a direct financial barrier (ie. tickets, registration fees, etc.), the applicant will be required to disclose those revenues in the application budget and final report actuals. Ultimately, these revenues will impact the grant funding amount initially granted and/or final payments and in some cases, reducing the eligible funding to \$0.
- Events that include a fundraising aspect that does not impact the ability of someone from the community to attend/participate (ie. 50/50 tickets, silent auction, live auction, etc.) will not be required to disclose those revenues in the application budget, nor final report actuals.
