

# TARTAN PARK

381 Tartan Circle West

Tartan Park is located in the West Highlands subdivision. It is an open area park with young trees and a pathway system that connects the park to the surrounding residential neighbourhoods.

The trail system is a great scenic detour for those out for fresh air and regular exercise.

There is also enough open space for a game of catch, frisbee or possibly touch football.

Although this is a young park it has great potential as it matures.
