

# KINSMEN PARK

1009 9th Avenue South

South Side

CITY OF  
*Lethbridge*

Kinsmen Park is a mature park well loved by the surrounding community. The park is also home to the Lethbridge Fish and Game Club, as well as community gardens to include those green thumbs in the neighbourhood.

The park is home to a playground geared towards younger children and features diverse climbing dome, swings and 3 slides. There are several picnic tables near the playground, as well as just north of the playground on the hill.

For the sports enthusiasts out there, this park is for you. There is a basketball court, lots of open space for frisbee or football, and a tennis court that doubles as a pickle ball court.

Beautiful, mature elm and poplar trees surround the entire park and provide plenty of shade and the perfect setting for a game of hide and seek.

The park is built on a gentle hill, providing a nice central location for tobogganing or sledding in the winter.
