

Form A – Micro-generation notice

If you have questions on how to fill in the form, refer to the micro-generation notice submission guideline posted on the AUC website under “Micro-generation” for detailed information.

Some small micro-generation projects may require utility engineering consultation.

Large micro-generation (greater than or equal to 150 kilowatts) project requirements:

- Utility engineering consultation required.
- Stamped single-line diagram required.

Check the appropriate boxes to identify your micro-generation project:

Does the project meet the micro-generation generating requirements? Yes ☐ No ☐

Are you an existing micro-generation customer? Yes ☐ No ☐

If yes, please state:

Existing capacity (in kilowatts): _____

Project number (if available): _____

Are you increasing or decreasing the generation capacity? Yes ☐ No ☐

If yes, please state:

Change in generation capacity (increase or decrease) in kilowatts: _____

Is this notice being used for aggregating multiple sites? Yes ☐ No ☐

1. Customer identification			
Name:		Company name (if applicable):	
Address:		City:	
Province:	Postal code:	Phone:	Fax:
Email address:		Preferred method of contact: Email <input type="checkbox"/> Mail <input type="checkbox"/> Fax <input type="checkbox"/>	
Other interested parties:			

2. Consultant identification, if applicable

Third-party authorization form may be required by the Wires Owner to share customer information and/or sign this form on the customer's behalf.

Consultant name:		Consultant phone number:	
Address:		City:	
Province:	Postal code:	Phone:	Fax:
Consultant email address:		Preferred method of contact: Email <input type="checkbox"/> Mail <input type="checkbox"/> Fax <input type="checkbox"/>	

3. Project description

Complete the following information for the generation site. If the project involves aggregated sites, list the sites in the following table with Site 1 as the micro-generator and others as load. Expand the list in separate sheets of paper if required.

Legal land description(s)	Site ID(s)
Site 1 (micro-generator):	Site 1 (micro-generator):
Site 2:	Site 2:
Site 3:	Site 3:
Site 4:	Site 4:
Service address(s):	Retailer name:
Site 1 (micro-generator):	Site 1 (micro-generator):
Site 2:	Site 2:
Site 3:	Site 3:
Site 4:	Site 4:

Energy source of the generator: Solar ☐ Wind ☐ Hydro ☐ Biomass ☐ Fuel cell ☐ Geothermal ☐
Combined heat and power ☐ Other ☐

If other, please specify: _____

Type of generator connected to the utility interface: Inverter-based ☐ Induction ☐ Synchronous ☐

Number of units/inverters: _____

Do the inverters comply with "CSA Standard C22.2 107.1 – Power Conversion Equipment" in particular standards respecting "Anti-islanding"?

Yes ☐ No ☐

Do the inverters comply with "UL1741 Supplement A - Standard for Inverters, Converters, Controllers and Interconnection System Equipment for Use with Distributed Energy Resources."

Yes ☐ No ☐

Have you reviewed the applicable wires owner's micro-generator interconnection requirements and terms and conditions?

Yes ☐ No ☐

Micro-generation generating unit total nameplate alternating current capacity in kilowatts:

Site 1: _____

Customer annual alternating current energy consumption in kilowatt-hours (information should be requested from retailer for 12 months).

Site 1: _____

Site 2: _____

Site 3: _____

Site 4: _____

Voltage level of connection:

Phase: Single ☐ Three ☐

4. Supporting documents required:

Submit the following supporting documentation:

- a) electrical single-line diagram of the micro-generation system
- b) site plan or pictures to illustrate the micro-generation unit location
- c) equipment specification from manufacturer
- d) applicable certification document(s)
- e) electrical inspection report (to be submitted after installation of the micro-generator(s) is completed and inspected)
- f) documentation verifying that the generator meets the less than or equal to 418 kilograms per megawatt hour limit specified in the Micro-Generation Regulation (combined heat and power unit)
- g) other supporting document(s), if any,
please specify: _____

Have you met all applicable municipal and zoning requirements, including noise rules and by-laws? Yes ☐ No ☐

Please specify: _____

Have you completed the participant involvement program stated in AUC Rule 007? * Yes ☐ No ☐

Please specify: _____

Have you met the requirements stated in AUC Rule 012 Noise Control?*		Yes <input type="checkbox"/>	No <input type="checkbox"/>
Please specify: _____			
Have you met all applicable environmental requirements?*		Yes <input type="checkbox"/>	No <input type="checkbox"/>
Please specify: _____			
Are you aware of any outstanding objections from any person regarding your project?*		Yes <input type="checkbox"/>	No <input type="checkbox"/>
Please specify: _____			
Requested in-service date (YYYY-MM-DD) for connection:			
Micro-generation generating unit owner signature:		Submission date:	
Consultant signature (if signing on behalf of the customer):		Submission date:	
<small>If signing on behalf of the customer, the utility may require a third party authorization to be signed by the customer.</small>			
<p><i>*The micro-generation customer must ensure that the criteria for an exemption from filing an application with the Commission as stated in Section 2 of Rule 007 are satisfied.</i></p> <p><i>To receive electricity generation credits, the micro-generation customer must notify its retailer or regulated rate provider once the notice is accepted by the owner or in the event that the Commission decides that a disputed unit is a micro-generation generating unit.</i></p>			
5. Electric distribution system wires owner use only:			
Owner's notice reference number:		Alberta Electric System Operator asset ID (if any):	
Date the complete application was received (YYYY-MM-DD):		Interconnection line:	
Accepted: Yes <input type="checkbox"/> No <input type="checkbox"/> Reason(s) for dispute:			
Interconnection agreement signed? Yes <input type="checkbox"/> No <input type="checkbox"/> Not applicable <input type="checkbox"/>			

Meter type: Interval <input type="checkbox"/> Cumulative <input type="checkbox"/>	Substation number at time of interconnection:
Meter installed date (YYYY-MM-DD):	
Remarks:
