

RIDGE PARK

34 Sixmile Road S

Ridge park is a medium sized park connected to South Gate and Coulee Creek parks through paved pathways. Mature trees line the east side of the park and provide a lovely canopy for a summer stroll through the neighbourhood.

A mix of natural space and manicured park, Ridge Park pond provides habitat for numerous bird species including red winged blackbirds, mallard ducks and Canada geese, as well as a number of aquatic plants which have established over the past seasons, including cattails and rushes near the water's edge.

Please note swimming and boating are not permitted on the pond.
