Definitions

Distribution Access Tariff Data	Means a detailed breakdown of each component for the rate class, indicating how the total billing for a site has been calculated.
Distribution Tariff History	Means billing history for a specific period (for example the last 12 months) provided as a summary of the monthly initial, interim and final billing calculations.
Disconnect	Means the cessation of electric service by disconnecting the service to the energy supply.
Financial de-energize	Refers to the physical disconnect of a customer's service due to non- payment of fees. As per regulation, no residential service shall be deprived of power between Oct 15 and April 15, and when the temperature in any 24-hour period is forecast to be below zero degrees Celsius.
In-situ tests	Refers to testing that can be conducted at the site of the installed meter.
LEU	Lethbridge Electric Utility
Load limiter	Refers to a device which limits the amount of power used at a site to the minimum required to operate a furnace.
Load Settlement	Means the process of determining the hourly consumption of electric energy of each customer in Alberta and providing that information to the Independent System Operator, retailers and regulated rate providers in order to identify responsibility for purchases of electric energy exchanged through the power pool.
LWSP	Means the City of Lethbridge Wire Services Provider, Electric Utility or designated agent(s).
Retailer	Means a provincially registered retailer with a Retail Access Service Agreement permitting retailer activities in the Lethbridge Wire Services Area
Rate of Last Resort (ROLR)	Referring to the default, regulated electricity rate in Alberta for customers who do not choose a competitive retail plan.

Tariff Period and Application

Effective Period

Fee application and related terms and conditions contained herein are effective January 1, 2022~~26~~
Tariff prices, applications and related terms and conditions remain in effect until replaced by a new or amended schedule approved by the City of Lethbridge Electric Utility.
