

# RIVERMILL ISLAND

## 107 Rivermill Landing West

West Side

CITY OF  
*Lethbridge*

This is a small triangular green space or pocket park located in the heart of Rivermill Landing. It features beautiful trees and colourful shrubs. It's primary purpose is an aesthetic complement to the neighbourhood. With a small amount of open space this park is ideal for a game of tag or possibly even hide and seek.

In the winter this pocket park is ideal for making snow angels or even for making a snowman or two (provided there's snow).
