

KINGS PARK

44 Kings Crescent South

South Side

CITY OF
Lethbridge

Kings park is comprised of a steep coulee that leads to the river valley with a scenic outlook located on the upper bench.

For those looking for a quiet getaway where they can look for wildlife from the top of the coulees, this park is for you.

CAUTION: the coulee is very steep and the ground is unstable. This area is slumping (coulees eroding away) so please stay away from the edge of the coulee.

Signs are posted to ensure the public does not go beyond the safe zone. This park is not recommended for parents with children; however those looking for a scenic view of the coulees would enjoy spending some time on the upper bench taking in the view.
