

## 2023 Electric Distribution Rates

Rate Code	Distribution Rate Description
991	<b>Standard Single Phase Distribution Rate</b> – for single phase service metered through a single cumulative or demand meter. <ul style="list-style-type: none"><li>▪ Demand less than 12 kVA</li></ul>
992	<b>Medium Single Phase Distribution Rate</b> – for single phase service metered through a demand meter. <ul style="list-style-type: none"><li>• Demand of 12 kVA or greater</li></ul>
994	<b>General Three-Phase Distribution Rate</b> – for three phase service metered through a single demand meter. <ul style="list-style-type: none"><li>▪ Demand less than 150 kVA</li></ul>
995	<b>Medium Three-Phase Distribution Rate</b> – for service through a three-phase connection at secondary voltage metered through a single demand meter. <ul style="list-style-type: none"><li>▪ Demand of 150 kVA or greater and less than 300 kVA</li></ul>
996	<b>Large Three-Phase Distribution Rate</b> – for service through a three-phase connection at secondary voltage metered through a single interval meter. <ul style="list-style-type: none"><li>▪ Demand of 300 kVA or greater</li></ul>
997	<b>Primary Distribution Rate</b> – for service through a three-phase connection at primary voltage metered to customer transformation through a single interval meter. <ul style="list-style-type: none"><li>▪ Demand of less than 15 MVA</li></ul>
998	<b>Public Lighting Distribution Rate</b> – for unmetered municipally owned and provincial owned public lighting systems and individual customer subscribed unmetered security lighting. .
999	<b>Unmetered Distribution Rate</b> – for unmetered service connections with small, consistent and predictable system usage.
