

LAKEVIEW GREEN STRIP NORTH

1166 Glacier Drive South

South Side

CITY OF
Lethbridge

The North Lakeview Green Strip connects the river valley and coulees to Henderson Lake Park. It is part of the regional trail network and the major east west corridor on the south side.

Amenities in the park include a small playground featuring a slide, climbing apparatus, swings, as well as open space suitable for younger children to play. Keep in mind the green strip is framed by a roadway on both sides.

The area features large mature trees and a great pathway frequently used by exercise enthusiasts and makes a great scenic detour through the Lakeview neighbourhood on your way to or from Henderson Lake.
