

BOTTERILL BOTTOM PARK

South Side

CITY OF
Lethbridge

Botterill Bottom Park is perfect for exercise and nature enthusiasts. The park is comprised of a mature cottonwood forest with a rich understory. The park provides ample opportunity to view different types of flora, fauna, birds, and even beavers.

A 3.5 km trail system links this park to Indian Battle Park and the upper bank trails to the east. There is a boat launch in the area; however please exercise extreme caution as there is a weir with severe undertows. Boaters are required to portage around it and not swim near it. This location is one of the better fishing areas along the Oldman River. Check Provincial fishing regulations regarding fish and seasons.

The trails are often busy with bikers, runners, hikers, roller bladers or those out for a leisurely stroll. Botterill Bottom Park is also the home of the new mountain bike park featuring jumps, moguls, and trick stunt areas. This facility is a joint venture between the City of Lethbridge and the Lethbridge Area Cycle Association.
