

HERITAGE COURT PARK

425 University Drive West

Heritage Court Park is a linear park and pathway system and links the neighbourhood to the University Drive East pathway system.

There is a seating area at one of the park intersections perfect for taking a breather from regular exercise routines along this route or simply to sit and enjoy the day.

This is a snippet of green space perfect for families with little ones wanting to get out for a quiet neighbourhood walk or maybe just an outing for an hour or two.
