

COACHWOOD POINT PARK

200 Coachwood Point West

West Side

CITY OF
Lethbridge

This is a small traffic island with a utility building located on site. Although not your typical park, this is definitely one of the most attractive traffic islands in the city. With a variety of trees and shrubs and a small amount of open space, this park is the perfect spot for making snowmen in the winter or playing a game of neighbourhood hide and seek when weather permits.
